## ***Beyond Capitalism & Socialism***

A NEW STATEMENT OF AN OLD IDEAL

*A twenty-first century apologia for social and economic sanity  
by twelve Catholics*

**Tobias J. Lanz, Ph.D. editor | Kirkpatrick Sale foreword | John Sharpe introduction**

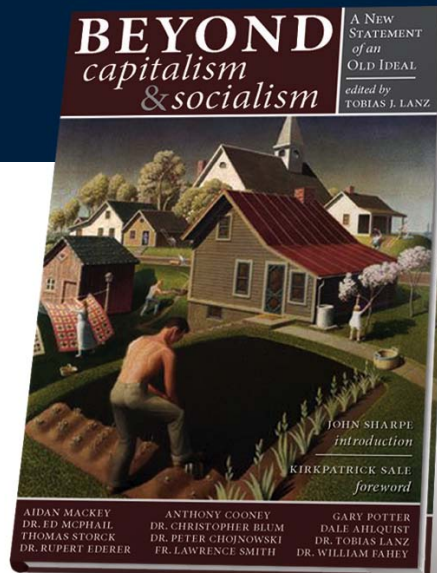

Twelve essays on Distributism and other approaches to society and economics based on Catholic social doctrine mount an aggressive challenge to the myth that dog-eat-dog capitalism is the only, and inevitable, alternative to stifling government control. All-new contributions from journalists, scholars, and priests present the ancient but up-to-date wisdom of the Church and Christian history, offering a compelling vision that puts people before profit.

#### **The Party System**

*by Hilaire Belloc and Cecil Chesterton  
foreword by Congressman Ron Paul  
introduction by Prince Sforza Ruspoli*

A frontal attack on parliamentary "democracy," illustrating how modern parliaments and congresses are the antithesis of true representation. Given the current political paralysis on vital social questions, the book reads like an answer to today's problems.

#### **The Church at the Turning Points of History**

*by Godfrey Kurth  
foreword by Dr. Patrick Foley*

A remarkable survey of the ability of the Catholic Church to surmount crises posed by civil society while maintaining its nature unchanged.
