The Bose® Wave® radio/CD. When we designed the Wave radio/CD, we spent over a year making it one of the smallest, most compact systems available. One that fits almost anywhere. But despite all that, all anyone seems to talk about is how lifelike its sound is.

What they're really talking about is our patented acoustic waveguide speaker technology. Its unique design means no other system can produce such room-filling sound from such a small enclosure. The result is music that's truly distinctive in its clarity and full, natural bass. So striking, the *Oregonian* called the Wave radio/CD "one of those little unexplained miracles of acoustic physics."

Experience the lifelike sound of the Bose Wave radio/CD for yourself. It's available directly from Bose, the most respected name in sound, and your satisfaction is guaranteed. Our installment billing plan lets you make **twelve interest-free monthly payments of just \$41.58\*** for the Wave radio/CD. The Wave radio is available for twelve monthly payments of \$29.08\*. When you call for either product, ask about our risk-free 30-day in-home trial. And hear for yourself what everyone's talking about.

To think, all that time making it small,  
and all anyone talks about is  
how it **sounds.**

Call 1-800-764-2073, ext. T6253.
