New, Easy, Scientific Home Method that GETS RID of DANDRUFF

Which Man Are You?

Pityrosporum ovale, the germ that causes dandruff, magnified many times.

*Listerine Antiseptic kills stubborn bottle-shaped germ (*Pityrosporum ovale*) which scientists proved causes dandruff. That's the secret of Listerine's amazing results . . . why many people have turned to it for real relief.*

If you have the slightest evidence of a dandruff condition, start now with the delightful twice-a-day treatment of Listerine with massage.

See how quickly you get relief. See how those humiliating flakes and scales disappear. Watch how fresh and clean your hair becomes. Note how healthy and full of vigor your scalp feels, how quickly irritation ends.

People who have tried remedy after remedy in vain, say that the Listerine Antiseptic treatment really works—and really gets results. This confirms the brilliant results achieved in dandruff clinics where dandruff sufferers were under scientific observation.

Even after dandruff has disappeared, it is wise to guard against re-infection by occasional Listerine Antiseptic massages at regular intervals.

LAMBERT PHARMAGAL COMPANY
St. Louis, Missouri

THE TREATMENT

MEN: Douse Listerine Antiseptic on the scalp at least once a day. **WOMEN:** Part the hair at various places, and apply Listerine Antiseptic right along the part with a medicine dropper, to avoid wetting the hair excessively.

Always follow with vigorous and persistent massage with fingers or a good hair brush. But don't expect overnight results, because germ conditions cannot be cleared up that fast.

Genuine Listerine Antiseptic is guaranteed not to bleach the hair or affect texture.
