Always eager to serve... yet so few Parker 51's can be produced

NEVER in the history of the fountain pen has there been a writing instrument like the Parker "51".

So nimble... so alert. The "torpedo" point starts instantly—responds as your slightest touch dictates. Add the miracle of *true dry writing* and you have a fountain pen no one wants to be without.

Unfortunately, many will have to be just now. For, even more vital than "51" pens are the shell fuzes, submarine and aircraft parts and other war goods Parker has been creating since before Pearl Harbor.

Furthermore, production of *all* "first choice"

fountain pens is now sharply curtailed by order of the War Production Board.

If you really *need* a new pen—for essential work or to keep warm, cheerful thoughts of home flowing to a loved one in service—order a Parker "51".

Your dealer will show you why the "51" is the *only* pen of its kind—protected by basic U. S. Patents. And he'll explain why the "51" *alone* can use the remarkable "51" Ink—the *world's fastest drying ink!* It dries as you write... no blotter is ever needed. Naturally, the Parker "51" can be used with any ink if you so desire—but you won't "so desire."

Parker "51" pens are available in four distinctive colors: Black, Blue-Cedar, Dove Gray, Cordovan Brown, \$12.50 and \$15.00. Pencils, \$5.00 and \$7.50. World famous Vacumatic pens, \$8.75. Pencils, \$4.00.

◆ **GUARANTEED BY LIFE CONTRACT!** Parker's Blue Diamond on the pen is our contract unconditionally guaranteeing service for the owner's life, without cost other than 35¢ charge for postage, insurance, and handling, if pen is not intentionally damaged and is returned complete to:
The Parker Pen Company, Janesville, Wisconsin.

Make your dollars fight—BUY WAR BONDS NOW!

"Writes dry with wet ink!"

Parker "51"
