THERE is one section of the United States whose past makes the rest of our country seem parvenu by contrast. This is the great Southwest, whose link to the stirring era of the Spanish settlement of the New World and to the older Aztec and Indian civilizations even before that casts the remote glow of antiquity over its rich history.

The day of the long, hard trails along which the pioneers rode is gone. Now there are swift, luxurious trains to speed the visitor across historic country to the splendors of the San Francisco Fair. But semblances of past glory remain. They persist in the old cities; they are recalled in the characteristic landscape of the Southwest that you may view from your car window; they linger in the countenances of the dwellers along your route — Hopis, Navahos, and even actual descendants of the conquistadors.
