particular" in the opinion of the Demo-
cratic National Convention, "and had
the added advantage of doing so in a
most distinguished way." Whether or
no Mr. Gilbert so intended, his essay
gives the impression that he shares the
opinion of the Convention. It is not a
convincing study. If written with mali-
cious intent, it is a masterpiece; if not,
it is a most unhappy performance.

The portraits of the other candidates
are interesting, though not equal to the
best in "The Mirrors of Washington"
nor to the Coolidge portrait. Except for
the Davis essay, the book may be recom-
mended as on the whole enlightening and
useful. It is eminently readable.

TRAVEL AND DESCRIPTION

WITH STEFANSSON IN THE ARCTIC. By
Harold Noice. Dodd, Mead & Co., New York.
\$2.50.

In 1915 the explorer Stefansson had
been given up by the world as lost in the
Arctic. An expedition was sent out in an
endeavor to find and rescue him, and
chance gave a twenty-year-old lad the
rare opportunity to join it. Stefansson
was found, and luck brought the lad a
berth with the new expedition which
Stefansson organized. He remained with
the noted explorer during two years.

This story is a full account of his ex-
periences as a full-fledged Arctic ex-
plorer. With Stefansson he explored
some of the islands of that immense
group which lies north of Canada and
west of Greenland. Stefansson abhorred
adventures. An adventure was a sign of
weakness or of omission to provide
against contingencies. Nevertheless the
author appears to have had his share of
adventure. The whole account is well
written, shows a sense of humor, and in-
cidentally is full of information.

Noice, like his leader, found the "Arc-
tic wastes" interesting in summer. At
77° north latitude "wild flowers, like tiny
sweet peas, blue and pink and purple,
bloom along the brook close by. . . .
White and yellow butterflies pursue
them. Beetles and ants tumble in and
out of the crevices. Because the sun
shines all of the twenty-four hours, the
sod is spattered with flowers, although
the highest temperature registered was
eight degrees above freezing."

HISTORY AND POLITICAL ECONOMY

FALL OF THE DUTCH REPUBLIC (THE). By
Hendrik Willem Van Loon. New Edition.
Houghton Mifflin Company, Boston. \$5.

It seems strange now that Mr. Van
Loon was not "discovered" when, in
1912, he issued this first of his historical
volumes. So much of what has made his
later works popular is already present,
making the story of the downfall of the
Dutch Republic far more interesting to
read than most works of fiction. The

theme, of course, must have interfered with a fuller appreciation of the book, for in those pre-war days we had not yet discovered that a small and far-off corner of the globe might have any claim on our attention beyond that of curiosity. Now, however, we may be ready to realize the lesson which even a great nation like our own may read out of the sad and sordid story so well told by Mr. Van Loon.

FOREIGN POLICIES OF SOVIET RUSSIA (THE).
By Alfred L. P. Dennis. E. P. Dutton & Co., New York. \$5.

During and after the war Professor Dennis has had unusual facilities for studying the international aspects of the Soviet régime in Russia, and he has used them excellently. His book is primarily a source and reference book, and as such it must be held invaluable to any disinterested student of to-day's Russia. But it is also a vivid and illuminating history of events in Russia since 1917, as viewed from without. Whether the Soviet prove a mere episode in the slow evolution of modern Russia or an enduring political form, the record of its struggles, victories, defeats, and intrigues during the last six years constitutes one of the most dramatic chapters in the history of the world, and one that inevitably invites to comparisons with the French Revolution. In his treatment of this chapter Professor Dennis has shown a rare gift both for the lucid co-ordination of great bodies of data and for unbiased presentation of facts and opinions with which he may or may not be in sympathy. Taking it all in all, the picture he gives us of the Soviet attitude toward the remainder of the habited globe must be proclaimed scrupulously fair-minded and, for that reason, irresistibly convincing. He says: "The progress of Russia is not dependent on recognition either *de facto* or *de jure*; it is dependent on the justice of the courts, on security for life and property, on honesty, and on trade. None of these can be provided by treaty nor guaranteed by diplomacy. They depend on Russia herself." This implied approval of our own policy toward the present régime in Russia may be supplemented by another quotation from his final chapter: "There are Bolsheviks who are mere political adventurers, others are fanatics, and still others are criminals; but of the sincere desire of the majority of the Bolsheviks to better Russia there can be no question."

A BOOK OF SUNSETS

By William L. Stidger

Several years ago Dr. Stidger, when journeying over many seas and into many lands, was much impressed by the sunsets as they were outspread to his rapt and reverent vision. In this volume he describes some of these sunset scenes in China, Java, Borneo, Sumatra, the Philippines and other places in the Far East.

BEYOND THE MOON GATE

By Welthy Honsinger

This is not a book of travel, although it takes the reader by rickshaw, sedan chair, slipper boat and wheelbarrow away from port cities into real China. It is not a book of history, although it pictures for the reader in most vivid manner the last days of the old Manchu dynasty and the dawn of the New Republic. It is more than the diary of a most unusual young woman who fell in love with the Orient and for ten years threw in her lot with it.
