DIRECTIONS

To solve this puzzle you must guess twenty-four words, the definitions of which are given in the column headed DEFINITIONS. The letters in each word to be guessed are numbered. These numbers appear under the dashes in the column headed WORDS. There is a dash for each letter in the required word. The key letters in the squares are for convenience, indicating to which word in the definitions each letter in the diagram belongs. When you have guessed a word, fill it in on the dashes; then write each letter in the correspondingly numbered square on the puzzle diagram. When the squares are all filled in you will find (by reading from left to right) a quotation from a famous author. Reading up and down the letters mean nothing. The black squares indicate ends of words; therefore words do not necessarily end at the right side of the diagram.

When the column headed WORDS is filled in, the initial letters spell the name of the author and the title of the piece from which the quotation has been taken. Authority for spelling and definitions is Webster's New International Dictionary (1938 edition).

The solution of last week's Double Crostic will be found on page 19 of this issue.

The new novel by the author of
"THE ROOT AND THE FLOWER"

L. H. Myers

of whom Clifton Fadiman has said: "It is improbable that there is another English novelist writing more tranquilly perfect prose."

The Pool of Vishnu

"THE POOL OF VISHNU carries on the adventures of the family of the Rajah Amar in the days of the great Mogul Emperor of India, Akbar. But although it places an eventful story of intrigue, war and personal exploit in that setting, its chief interest is not in historical incident in 16th century India, but in man's eternal quest for an inner solution to the problem of life... The blending of philosophy and incident is a beautifully written novel, focused in the subtle searching of man's spirit."—*New York Herald Tribune*.

A challenging, hopeful book about America by

Stuart Chase

Idle Money Idle Men

How to Put Them Both to Work

A guide through the new economic world which has closed in upon us since the 1930's. What has happened to the classical economic formulas? And what generation has ever had such vast problems as today's, or such threat of insecurity? Seeking a realistic answer to the problems of idle capital, idle workers, unbalanced budgets, saturated markets, Stuart Chase points a way out, and not by invoking Marx, Adam Smith, or a dictator. One of the most vital books of this vital election year. \$2.00
