DIRECTIONS

To solve this puzzle you must guess twenty-odd WORDS, the definitions of which are given in the column headed DEFINITIONS. Alongside each definition, there is a row of dashes—one for each letter in the required word. When you have guessed a word, write it on the dashes, and also write each letter in the correspondingly numbered square of the puzzle diagram. . . . When the squares are all filled in, you will find that you have completed a quotation from some published work. If read up and down, the letters in the diagram have no meaning. . . . Black squares indicate ends of words; if there is no black square at the right side of the diagram, the word carries over to the next line. . . . When all the WORDS are filled in, their initial letters spell the name of the author and the title of the piece from which the quotation has been taken. Of great help to the solver are this acrostic feature and the relative shapes of words in the diagram as they develop. Authority for spellings and definitions is Webster's New International Dictionary, Second Edition.

GOOD SENSE FOR EVERY READING FAMILY

THE PURPOSE of this suggested trial membership is to demonstrate two things by your own experience: first, that you can really keep yourself from missing, through oversight or over-busyness, books you fully intend to read; second, the advantages of the Club's unique Book-Dividend system, through which members can regularly receive valuable library volumes—at a small fraction of their price—simply by buying books they would buy anyway. The offer described here really represents "advance" Book-Dividends earned by the purchase of the three books you engage to buy later.

* The three books you choose from those pictured on this page will

be sent at once and you will be billed \$1.00 for each volume (plus a small charge for postage and handling).

* If you continue after this trial you will receive, with every Club choice you buy, a Book-Dividend Certificate. Each certificate, together with a nominal sum—usually \$1.00—can be redeemed for a valuable Book-Dividend which you may choose from a catalog of more than a hundred fine library volumes whose publishers' retail prices now average \$7. Since the inauguration of the Book-Dividend system, more than \$270,000,000 worth of books (publishers' retail prices) has been received by members through this profit-sharing plan.
