## DIRECTIONS

To solve this puzzle you must guess twenty-odd WORDS, the definitions of which are given in the column headed DEFINITIONS. Alongside each definition, there is a row of dashes—one for each letter in the required word. When you have guessed a word, write it on the dashes, and also write each letter in the correspondingly numbered square of the puzzle diagram. . . . When the squares are all filled in, you will find that you have completed a quotation from some published work. If read up and down, the letters in the diagram have no meaning. . . . Black squares indicate ends of words; if there is no black square at the right side of the diagram, the word carries over to the next line. . . . When all the WORDS are filled in, their initial letters spell the name of the author and the title of the piece from which the quotation has been taken. Of great help to the solver are this acrostic feature and the relative shapes of words in the diagram as they develop. Authority for spellings and definitions is Webster's New International Dictionary, Second and Third Editions.

## The most economical library-building system ever devised: **BOOK-DIVIDENDS**

THE EXPERIMENTAL membership suggested here will not only prove, by your own actual experience, how effectively membership in the Book-of-the-Month Club can keep you from missing, through oversight or overbusyness, books you fully intend to read; it will also demonstrate another equally important advantage enjoyed by members: Book-Dividends. Through this unique profit-sharing system Book-of-the-Month Club members can regularly receive useful and beautiful volumes and fine high-priced library sets—at a small fraction of their price—simply by buying books they would buy anyway. The offer described here really represents “advance Book-

Dividends” earned by the purchase of the three books you engage to buy later. If you continue after this trial membership, you will receive, with every Club choice you buy, a Book-Dividend Certificate. Each Certificate, together with a nominal sum, usually \$1.00 or \$1.50—occasionally more for unusually expensive volumes—can be redeemed for a valuable Book-Dividend which you may choose from more than a hundred fine library volumes whose retail prices now average \$7. Since the inauguration of the Book-Dividend system, more than \$300,000,000 worth of books (retail value) has been received by members through this unique plan.
