DIRECTIONS

To solve this puzzle you must guess twenty-odd WORDS, the definitions of which are given in the column headed DEFINITIONS. Alongside each definition, there is a row of dashes—one for each letter in the required word. When you have guessed a word, write it on the dashes, and also write each letter in the correspondingly numbered square of the puzzle diagram. . . . When the squares are all filled in, you will find that you have completed a quotation from some published work. If read up and down, the letters in the diagram have no meaning. . . . Black squares indicate ends of words; if there is no black square at the right side of the diagram, the word carries over to the next line. . . . When all the WORDS are filled in, their initial letters spell the name of the author and the title of the piece from which the quotation has been taken. Of great help to the solver are this acrostic feature and the relative shapes of words in the diagram as they develop. Authority for spellings and definitions is Webster's New International Dictionary, Second and Third Editions.

Saturday Review

Why does Barbados have such low summer rates when Barbados has no summer?

Devilishly hot competition.

Barbados has one heavenly season year 'round. But we must compete with resorts that reduce rates when it's hot as the devil.

This little map shows you why Barbados doesn't get hotter in the summer. It's the Eastern-most

Caribbean island. So it gets all the cooling Eastern Trade Winds first. There is no land between Europe and Africa where the breezes come from. They refresh Barbados first. It's the only place in the world where you can stand in Trafalgar Square and actually feel the Trade Winds blowing across. Temperatures are always 70° to 85°, with sunny skies and low humidity. Yes, you can come to Barbados and escape blistering summer, yet average less than half the cost for the same accommodations and lovely climate.

Barbados has a hundred and one new sights to see, people to meet, memories to bring home.

Where else can you order flying fish for dinner? Watch cricketers in the morning on the beach? Swim in two seas (the Atlantic or Caribbean)? Enjoy an atmosphere of British tradition and charm?

Where else can you stay in an old buccaneer's castle, as well as hotels, clubs and guest houses? Feel that everyone is delighted you came and sorry you must leave? Where else? Nowhere else but Barbados. The singular island that gives you hot summer rates though it gets no hotter in the summer.

Barbados
