For people who are not ashamed of having brains.

Here is the most superb home library ever assembled — Great Books

It may not be popular to admit it, but all people aren't created equal. Not with equal intelligence, anyway. And the longer they live (and learn), the less equal they get.

You were probably born with a bigger share of intelligence than most of your fellow men . . . and taught how to use it.

Chances are, the records you own play a more sophisticated brand of music. The books in your library offer more nourishment. The home you live in is equipped for a more gracious way of living.

Most of all you appreciate the difference.

Certainly, you are not ashamed of having brains. You enjoy using them.

For this reason alone, Great Books belong in your home. These are the writings of Plato, Homer, Cervantes, Tolstoy, Dostoevsky, Freud, Rabelais, Aristotle, Shakespeare and many, many more. They contain just about every important thought of Western man for the past 3,000 years! The Great Books were published in collaboration with the University of Chicago, by Encyclopaedia Britannica. A set of 54 beautifully bound volumes containing 443 masterpieces by 74 of the greatest geniuses who ever lived. A library you couldn't duplicate at any price.

**The \$1,000,000
Syntopicon included**

With the Great Books (and available only with Great Books) is a unique reference work called the Syntopicon. An amazing index that required 8 years and cost more than \$1,000,000 just to write.

Unlike a dictionary that indexes words, or an encyclopaedia that indexes facts, the Syntopicon indexes ideas—every one of the thousands of topics and sub-topics within the Great Books.

In minutes, the Syntopicon enables you to look up any idea in the Great Books and find what each of the great thinkers thought about it.

Also included with the Great Books are the handsome 10-volume reading plans. And you may also get a remarkable 10-volume set called Gateway to the Great Books as well.
